The aim of marketing is to know and understand the customer so well the product fits him and sells itself

I promise to love you till the last day of my life
Good fathers hold their child's hand in a crowded place and they want to protect their child from the world.

What does 10950 mean?
10950 is the number of times you will consume food after retirement between age 60-70
3 meals a day x 365 days x 10 yrs = 10950
Rs. 300 x 365 days x 10 yrs = Rs. 10,95,000
Assuming a minimum cost of Rs 100 per meal, (Without considering inflation) post-retirement you would need at least Rs.10,95,000/- just for food.
Have you planned for your retirement?
